

# The Eden Alternative Iceland presents two training sessions with international trainers Carol Ende and Rayne Stroebel

This exciting one day training course will look at "DEMENTIA - THE PERSON BEHIND THE DISEASE". People do not only "suffer" from dementia, but they do suffer from the way that people and society treat them. Through the Domains of Wellbeing of The Eden Alternative, combined with the strength based psychology principles, we will present a new way of perceiving people living with dementia. Participants will discover creative ways to support people living with dementia, and be given the tools to create growth plans that will enhance the wellbeing of all care partners.

Prior to joining the Home Office Team, Carol Ende was involved in active implementation of The Eden Alternative, both within long-term care organizations and in collaboration with the State of Alaska. Between 2003 and 2010,

she held different positions within the Eden Alternative Home Office, including Executive Director. Today Carol continues as an educator and speaker, and consults with organizations on their unique culture change journey. Carol's simple pleasures are a walk in the woods, a good cup of coffee, sharing time with friends and family, and exploring the world with her husband, Jim.

Rayne is the International Coordinator of The Eden Alternative in South Africa, and has been working in the Aged Care sector for 22 years providing a host of services and consulting to the sector. In 2016 Rayne completed a Master's degree in Dementia Studies, and is currently doing a research PhD in Dementia. Rayne has spoken at many conferences and presented training across the world.
